

Pardon our dust as we are expanding to add more services and cutting edge technology to better serve YOU!

Our additions...

- CT Scan machine with cutting edge diagnostics for implant surgeries, wisdom teeth surgeries and root canal treatments.
- Digital Radiographs for minimum radiation, instant images on the chair monitors, and higher accuracy.
- Expanding treatment rooms fully equipped for advanced implant surgeries, teeth in-one-day services, and root canal treatments.
- In-house porcelain laboratory for customization of color matching and esthetics.

Our services...

- Air abrasion filling – drill free, needless fillings.
- Perio Protect Trays- the most non-invasive approach to gum disease. Delivery of anti-bacterial medication in the depth of the gum pockets at home.
- Botox -The most common benefit of Dentox (Botox for Dentistry) is the elimination of tension headaches migraine headaches by the reduction in the number of clenching events and their intensity. This will reduce the destruction and discomfort of your teeth, gums, jaw joint and chewing muscles.
- Lip Fillers - dermal fillers are also used for lip augmentation and are used by dentists for high lip line cases, uneven lips, and to make the peri-oral area more esthetic.
- Invisalign/Braces – options for straightening teeth and correcting the bite.
- Relaxing visits with Sedation options: Nitrous Oxide (laughing gas), Oral Sedation, and General Anesthesia.

Our team...

Over 100 years of accumulative experience that will benefit all our patients.
